

Wall Mount Galvanised Bike Rack

A sturdy mild steel and hot dip galvanised bike rack designed to be wall mounted to accommodate 1 full size bicycle with the ability to lock one wheel and the frame for total security.

The bike is suspended on a plastic coated prong to protect the rims from possible damage. Can be used indoors or out.

While galvanised is the standard finish, powder coating is also available on request.

- Schools
- Residential Car Parks
- Commercial Building Complexes
- Hospitals
- Public Spaces

Part No.
